 3. To develop awareness, sensitivity, and understanding of the self, people around them, society at large, and nature.
 4. To share the basics concepts & syllabi to sensitize students towards exploring their academic interest and goals for excellence in academics.

Summary of the Activity/Event:

In this program respected principal sir gave guidelines to TE Civil & BE Civil students as below:

- Mind Mapping are great for learning, planning, and even presenting what you've learned and planned.
- The goal of engineering education is to train engineering graduates well in branch of admission, have a holistic personality and must have desire to serve society and nation.
- It is expected that an engineering graduate work for solving the problems of society using the modern technologies and practices.
- That needs the broad understanding of the society and relationships. It is needed to cultivate the human values in engineering graduates to fulfil his responsibilities as an engineer, a citizen and a human being.
- Considering the various social backgrounds and whether a student comes from the urban or rural areas they differ in many of the life skills and their abilities and thinking.
- It is necessary to create an environment for urban or rural areas students so that they feel comfortable, find their interest and explore their inner beings, create bonding with other students, establish relation with teachers, work for excellence, get a broader view of life and practice human values to build characters.
