**A Report
On
Industrial visit**

Date of Visit: 1st February - 2023

Class: FE Div- A, B, C & D

(Session 2022-23)

Industry Visited: MAPRO Pvt Ltd Wai - Satara.

Industrial Tour Members:

Faculty and staff:

Prof. Rushikesh Londhe
Prof. Vishal Borate
Prof. Amol Kharat
Prof. Venkatesh Dange
Prof. Sidhu Jadhav
Prof. Pratiksha Patil
Prof. Supriya Raut
Prof. Pranali Pale

The detail schedule of Industrial Visit are as follows:

Three vehicles arranged (Bus - A, B, C) for 118 members and departed from DYP COEI campus for Varale Maval Talegaon Dabhade On 1st February 2023.

Departure: 8:30 AM

Reached: 11:00 AM

About MAPRO:

Mapro Gardens is a garden park in the hill station of Panchgani, in the Indian state of Maharashtra. It is near to Mahabaleshwar. The region is India's leading strawberry producer. It is a popular tourist destination. It is located in the village of Gureghar and developed and maintained by food processing company Mapro.

Gureghar claims to be one of India's first villages to have 100% sanitation with every house having a biogas plant.

Mahabaleshwar contributes 85% of India's total strawberry output. About 80% is consumed fresh.

Gureghar/Mapro Garden hosts an annual Strawberry Festival. The festival encourages strawberry cultivation in the area. During the festival fresh picked strawberries are lined up for visitors. Traditional folk performances such as Shivkalin Dhol and Lezim take place.

Origins:

Mapro is a food processing company founded in 1959, in the hill-town of panchgani, near mahabaleswar. Mapro was started by pharmacist Kishore vora. From 1983 it was expanded by his nephew mayur vora. Mapro set up a fruit processing unit at gureghar with 12 employees. Mapro provided nearby farmers with technical guidance and committed to buy their produce.

Mapro, soon became a top-notch brand with its continued innovation in the development of processed foods ranging from jellies to fruit syrups and from crushes to dessert toppings

Mapro stands for Maharashtra agricultural production. Its food park is located around the idyllic hill-town of panchgani, mahabaleshwar in western India, maprofoods manufactures fruit jams; fruit beverage concentrates – crushes and squashes; and fruit bars.

Mapro foods private limited is a private incorporated on 04 January 1990. It is classified as non-govt company and is registered at registrar of companies, pune

The place is a haven for strawberries' production, and the food served here deserves a special mention. Mapro gardens is a famous picnic spot in mahabaleshwar that can be visited with family and kids for spending a day filled with excitement.

Mapro foods private limited is majorly in manufacturing (food stuffs) business from last 33 years and currently, company operations are active. Current board members & directors are mayur jaykumar vora, rajvi mayur vora and sachin kailas hase. Full of fruit fiber, healthy; nutritious mapro mix fruit jam is a great source of energy for you. It curbs your hunger in a healthy way while satisfying your craving for fruit. An important ingredient on your breakfast table, use it every day and start your day with a healthy delight.

Objectives of Industry Visit

The objective of an industrial tour is to provide an insight regarding internal working of companies. We understand that theoretical knowledge is not enough for a successful professional career. With an aim to go beyond academics, industrial tour provides students a practical perspective of the work place.

Outcomes of Industrial Visit

As per the present scenario, technology is advancing rapidly. New innovative ideas need to be cultivated to keep up with the emerging technological demands. Industrial visits also seem to present networking opportunities for the students with the company's HR, thereby increasing the opportunities for internships, placements, etc., for students. The domain wisdom and practical outlook towards the industry & requisite skills for the industries is also known to the students. Industrial visits provide the students with an opportunity to learn practically through the interaction, working methods and employment practices. It gives the students an exposure to current work practices as opposed to theoretical knowledge being taught at their college classrooms.
